DRIED FRUITS, NUTS, SEEDS, SPICES & PASTRY

Delicious indulgences for everyone's taste

ABOUT THE COMPANY

Orlando Import Export 2001 produces, packs and sells a wide range of dehydrated fruits, nuts, seeds, spices and condiments, delicacies for confectionery and confectionery.

- **DEHYDRATED FRUITS AND CONFIDED**

- **NUTS, SEEDS AND OIL PRODUCTS**

- **SPICES AND SPICES**

Established in 1994, as a greenfield investment, the Company has adopted a traditional business model, with objectives that have resulted in the constant development of the business and the continuous diversification of the product range.

The personalized way in which the Company approaches the market and the attitude towards consumers shapes the trends and shapes the select taste specific to Orlando products:

- **INGREDIENTS AND CONFECTIONERY PRODUCTS**

- **LEGUMINOUS**

- **PASTA**

Innovative market strategies, investments made and attention to the needs of end customers are the ingredients of the success of the Company which is the market leader in the field of packaging of dried and candied fruits and one of the most important operators in the field of oil products and condiments.

Development strategy

It includes the further modernization of existing production units, through the purchase of raw material processing and conditioning equipment and systems, food control and supervision systems, computerization of production processes and automated management.

Orlando Import Export 2001 founded as a strategic direction the implementation of the Project for the development and modernization of processing capacity, financed with own funds and PNDR co-financing, with an investment value exceeding 2.3 million euros.

The investments aimed to increase economic efficiency and productivity by meeting technical, economic,

financial and environmental objectives:

- Increasing the processing capacity by purchasing high-performance machines / equipment for raw material processing, by 72% at the end of the project implementation compared to the reference
- Increasing the nomenclature of products both by diversifying the forms of packaging by introducing new sizes and sizes of bags and by increasing the assortment variety of raw materials used in the form of mixed and / or processed semi-finished products
- Increasing the internal control capacity for food safety by acquiring high-performance metal detection systems in the production process as well as weighing equipment in continuous production flow.

OUR EQUIPMENT

The company's own production unit operates with 3 dedicated sections:

- processing, granulation, baking and seasoning of oil products
- processing of sugar products
- conditioning dehydrated fruits, nuts and seeds products, spices and sugar products

We use state-of-the-art technologies, modern means of

production and equipment specific to each processing activity. We have advanced production systems and high-precision packaging and conditioning systems.

- We have fully equipped warehouses, specially allocated for raw materials, semi-finished products and finished products;
- We transport and deliver over 100

tons of goods daily

- We import raw materials from over 80 countries
- We carry out particularized innovation research activities
- We have our own qualitative analysis laboratory and directly determine the organoleptic characteristics of internally received or processed products. We supervise the application of the quality system in all phases of the reception, production and distribution process
- We ensure the traceability of

products through ERP and inventory management systems, designed to track the flow of products from reception to distribution, giving us the opportunity to offer food with attributes of guaranteed quality

- We have an integrated Quality Management System
- The GMP (Good Manufacturing Practice) standard is implemented at all stages of the manufacturing process and the entire activity is in accordance with the legislation in force

2020

Factory area	8.900 m²
Production area	2.000 m²
Storage area	6.400 m²
Offices	500 m²

The factory currently covers an area of 8,900 m² and is in the process of expansion.

ORLANDO

MISSION

We want to always be the first choice of consumers and to exceed their expectations every time, offering products with a special taste for the joy of healthy eating.

Orlando aims to meet the needs of consumers with natural products, rich in nutrients, really tasty, brought from all over the world.

VALUES

Our achievements are built on a solid foundation with fundamental values that inspire integrity, commitment to customers and the desire to be the best in everything we do.

- Quality and safe food for business sustainability
- Respecting the environment to promote the development of society as a whole

PACKAGING DESIGN

The products sold create a strong visual impact on the shelf through the graphics of the packaging that underline and increase the degree of attractiveness for the exhibited products.

WHY IT'S GREAT TO BUY FROM US?

- We have large stocks of raw materials and we have the possibility to store and deliver very large quantities of finished product
- Because the products in the catalog are our own products, with a registered design, and these products are very cost-effective. With these products and success is safer!
- We can adapt the product offer to the distributor's requirements, both in terms of weight and packaging and packing. We are very versatile in the offer and we continuously adapt to customer requirements
- We have a very wide range of products
- We can customize the products or the special offer for the distributor
- Because we have very competitive prices
- At special requests we help you with special prices!
- Because we offer you complete, comfortable, fast and reliable services!
- We deliver orders according to schedule, in minimum time

PORTFOLIO

"We offer our customers, daily, outstanding products. Some people call them seeds, nuts and dried fruits. But we like to call them Benefits: our concern is to deliver exceptional, value-added products that consumers can adequately benefit from."

Our goal is to develop tasty and high quality products, in correlation with the sustainable growth of the company.

Our goal is to ensure the useful value of products and increase their competitiveness in all markets.

We take into account the wishes of consumers and respond to their needs. As a result, our team of specialists is constantly working to create new delicious products that meet the ever-changing tastes of customers and their expectations.

- ***Improve quality procedures***
- ***Keep up to date with the latest technologies***
- ***Provide a quick response when it is necessary to adapt to market needs***
- ***We want to be with our customers, to be better and to meet their needs***

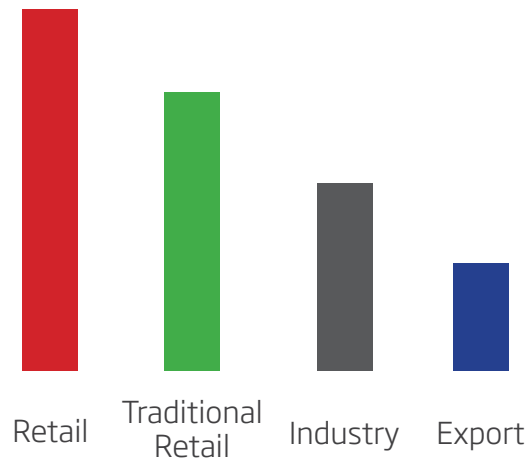

OUR PARTNERS

We develop partnerships with all modern retailers in Romania, we are involved in international projects carried out by them and we have national coverage in traditional retail.

By collaborating with our partners we are present in all store chains with our own brands Orlando's, Nutco Fresh and Oblio and by developing the brands "Privat Label" in all four categories: dehydrated and candied fruits, oilseeds, spices

and ingredients for pastry .

The strategic marketing directions are also based on the expansion of the activity in the industrial field, with direct addressability to all operators in the segment of food production and related industries. We aim at the rapid activation of trade relations with retailers on the foreign market. Today we have partners in countries such as: Germany, Spain, Ukraine, Lithuania, Italy, Belgium, Vietnam.

PESTO WITH PUMPKIN SEEDS

We like pasta so much that we decided to show you the last recipe we tried. It's a farfalle pasta recipe, to which we made the best Pesto sauce with pumpkin seeds. Everyone knows that traditional pesto sauce is based on fresh basil, parmesan, garlic, olive oil and pine seed. We've been a little adventurous and chose to replace pine seed with Orlando's Pumpkin Seed.

Menu

Menu

Cumin Seeds

With its slightly sweet, stinging aroma and spicy taste, Orlando's Cumin Seeds are used mainly in baked dishes, in the preparation of seed-colored bread, cabbage-based foods, soups, and a variety of cheeses or liqueurs.

Weight: 250g
EAN Code: 5941764000446

Chopped Oregano

Orlando's Chopped Oregano is especially used in tomato sauces, baked or fried vegetables or grilled fried meat. In the Asian kitchen, it is added to the water in which the beef is boiled, because it eliminates the beef smell and gives the meat a special smell. It can mix well with spicy or very flavourful foods and goes together with olives, capers, and leeks.

Weight: 250g
EAN Code: 5941764001306

Chopped Thyme

Orlando's Chopped Thyme has a vivid flavor for soups, stews, and vegetables. Combined with parsley and bay leaves, thyme is included in the French herbal combination called "bouquet garni", used for stews and soups. Orlando's Chopped Thyme is used in various dishes, especially in bean or lentils. Orlando's Chopped Thyme is sometimes inserted into the jars of the cabbage and the cucumber.

Menu

Black Pepper Grains

Black pepper is one of the 4 existing varieties of pepper, along with red, green and white. Black pepper is obtained from the ripe berries of the pepper plant, which are passed through hot water, both for the purpose of sterilization and for their preparation for drying. Pepper has retained its immeasurable value, attributed since antiquity, through its intense-spicy aroma having the special ability to enhance the taste of other spices. Orlando's Black Pepper offers a truly unique flavor to almost every dish.

Orlando's Mosaic Pepper Berries is an exceptional product for any kitchen, a special blend that adds to the flavor of every assortment of pepper in the composition. Its special taste is excellent to create many specialties and to arrange different dishes. Orlando's Mosaic Pepper Berries is a source of fiber, potassium, iron, vitamin C, and K.

Weight: 100g
EAN Code: 5941764001658

Menu

White Pepper Grains

Orlando's white pepper is one of the most used spices alongside green onions, ginger, soy sauce or rice vinegar. White pepper is used for seasoning white sauces or salads, in order to intensify swiftness without altering existing flavors.

Weight: 50g
EAN Code: 59417640222257

Ground White Pepper

Orlando's Ground White Pepper is often preferred over saucers, white soups for aesthetic reasons. Its taste is fine and much faster than black pepper.

Weight: 100g
EAN Code: 5941764001580

Red Pepper Grains

Orlando's Red Peppercorn is the most fragrant of all the pepper varieties, acquiring the valences of an exotic spice. Although it is strong in taste, it does not cover the flavor of other spices, but enhances it. It is widely used in Western cuisine, but also for flavoring desserts or saucers.

Weight: 50g
EAN Code: 5941764001719

Green Pepper Grains

Orlando's Green Pepper Grains is very fragrant and not very hot. Can be used in pasta, marinades and creams, but also in cakes. It is also recommended for flavoring fruit salads or desserts.

Menu

Chopped Walnut Kernel

Walnuts are a food that concentrates a wealth of nutrients - vitamins, fats, antioxidants. The beneficial effect on the body is guaranteed by the presence of fatty acids (monounsaturated acids - 25%, polyunsaturated acids - 59% and only 5% saturated acids). They are extremely healthy, being perfect for a responsible diet. Even in the case of diets, eating nuts gives the feeling of satiety.

Weight: 150g
EAN Code: 5941764023773

Chopped Almonds

The chopped almonds can be used both in sophisticated recipes and as simple snacks in any type of diet. The pleasant taste and crunchy texture recommends them for biscuit recipes, cookies, countertops for various cakes. They can be used in salads, puddings or as surprise ingredients in delicious dishes. Consumption of almonds is especially recommended due to the presence of monounsaturated fatty acids, dietary fiber, antioxidants and vitamins.

Weight: 150g
EAN Code: 5941764023223

Chopped Blacked Almonds

Almonds are rich in Vitamin E, B-complex vitamins, Omega 6 fatty acids, magnesium, potassium, phosphorus, zinc, selenium, iron, calcium, folic acid, protein and fiber. Almond consumption is unique in that they contain riboflavin and L-carnitine, two vital nutrients that can positively influence neurological activity. They are recommended in any diet, because they help maintain high energy levels.

Weight: 150g
EAN Code: 5941764023797

Chopped Baked Peanuts without Salt

Being a tasty source of minerals, vitamins and proteins Peanuts can be used in food and as a healthy source of fat. They contain a high number of monounsaturated fatty acids and a large amount of polyphenolic antioxidants. Chopped peeled peanuts are perfect for cakes and pastries, being versatile in any recipe and easy to use.

Weight: 150g
EAN Code: 5941764023803

Menu

SALTED CRACKERS WITH PISTACHIOS AND BASIL

Crackers are ideal for those moments when you want to nibble on something or when you have guests at the table and you want to serve them some snacks.

We have to admit that we have them on the table for almost any occasion. We like it so much that we decided to make our own recipe and we also had the perfect ingredient for it. I used shredded pistachios from Orlando's Maestro's new product line.

Chopped Kernels Pistachio

Pistachio is the perfect snack rich in protein, phytochemicals, vitamins and minerals. It contains antioxidants and is an abundant source of essential minerals. Chopped Pistachios can be used in the preparation of a wide range of recipes: cakes, chocolate, ice cream, waffles, fruit and nut salads, muesli, cookies, vegetable salads (the fats present in nuts help to better assimilate the nutrients present in vegetables).

Weight: 150g
EAN Code: 5941764023810

Almond Flakes

Almond flakes are a healthy snack or a tasty ingredient for delicious and refined recipes. The benefits of eating almonds are supported by the rich content: Vitamin E, B-complex vitamins, Omega 6 fatty acids, magnesium, potassium, phosphorus, zinc, selenium, iron, calcium, folic acid, protein and fiber.

Weight: 150g
EAN Code: 5941764023827

Menu

Grounded Walnut Kernel

The Ground Walnut Kernel is used in the kitchen for gourmet recipes, simple or in various combinations in the form of healthy snacks, at any time of the day: *At breakfast* with milk, yogurt, sana, to taste; *At lunch* when preparing steaks in crust, when preparing doughs and fillings for cakes, croissants or others, according to preferences with honey, sugar or jam; *At dinner* in salads and desserts chosen to benefit from the discreet aroma of walnuts.

Weight: 150g
EAN Code: 5941764023872

Grounded Blanched Almonds

Almond flour is used for low-carb and gluten-free dishes. It is the most popular alternative to traditional wheat flour. It is low in carbohydrates, nutritious, rich in Vitamin E and has a slightly sweet taste. It is flour that can successfully replace wheat flour in a 1:1 ratio to many baked dough products. It is suitable for yeast-free doughs (bread, cakes, pancakes).

Weight: 150g
EAN Code: 5941764023896

Grounded Almonds

Almond meal is rich in nutrients and is used in paleo, low carb diets, in gluten-free dishes. It is commonly used for baked goods, such as for the preparation of muffins, cookies, biscuits and bread. Advantage: due to the coarse texture, it can be used as a substitute for breadcrumbs to cover meat and vegetable topping.

Weight: 150g
EAN Code: 5941764023889

CAKE WITH GROUNDED ALMONDS, POPPY SEEDS AND LEMON

Besides the fact that it is made quickly, it is also very easy to prepare, and for this cake you do not need extremely many ingredients. We replaced wheat flour with ground almonds from the Maestro range. Ground almonds are suitable for people who want to lose more carbohydrates, who are gluten intolerant or for those who follow a healthy lifestyle.

Menu

Golden Raisins

Golden Raisins are a healthy, tasty food to add to your diet and healthy eating. They contain many vitamins and minerals, such as ascorbic acid, niacin, pyridoxine, iron, potassium, magnesium and phosphorus. They can be added to cakes, salads, or simply eaten as a snack between meals. By adding it to kitchen dishes it turns into an ally of the body. Used in preparations, raisins help retain moisture in finished products.

Weight: 250g
EAN Code: 5941764002297

Brown Raisins

Brown Raisins are obtained from seedless grapes by natural drying of the grapes in the sun. They are a good source of essential nutrients, minerals and energy in the form of calories and sugars. They can be used as a topping for yogurt and cereals or can be included in many other dishes, such as baked goods (cakes, cakes, croissants, cheese pies), trail mix and granola.

Weight: 250g
EAN Code: 5941764002228

Vanilla Flavor Sugar Powder

Vanilla flavored powdered sugar is used for powdering cakes and for making creams and glazes. It has the advantage of being able to be used in a variety of recipes, being ready flavored. Also the delicate aroma of vanilla adds to the taste of the dishes. It can be used in the preparation of cocktails, as a flavoring agent for various dishes, being an important ingredient in many desserts, sweet sauces, preserves and pastries.

Weight: 150g
EAN Code: 5941764023865

Dry Baking Yeast

Yeast is a symbol of vital force, it gives life to the dough, just as the earth gives life to the wheat grain. Dry yeast is used for bread dough, pizza, rolls and other bakery products.

Weight: 25g
EAN Code: 5941764026293

Menu

Coconut Flakes Blue Décor

Weight: 100g
EAN Code: 5941764001801

Menu

Sesame Seeds

Orlando's Sesame Seeds can be eaten crushed or as such in various dishes, salads, sauces or desserts. In the composition of sesame seeds are proteins and vitamins with a beneficial role in food. They are used as a flavoring decoration for pickles, croissants, pretzels and topping for pastries.

Weight: 250g
EAN Code: 5941764002341

Poppy Seeds

Orlando's Poppy Seeds are ideal for bakery, confectionery and pastry, in fruit salads or dressings, in biscuits or pretzels. They can be used as fillings for pies, cakes but also for various Indian or Oriental dishes or as a spice for fish or potatoes. They have both nutritional and medicinal values due to their high content of calcium, phosphorus, iron, zinc, small amounts of opiates, mono and polyunsaturated fatty acids, vitamin E.

Weight: 250g
EAN Code: 5941764001078

Menu

Snail Pasta

Pasta is the most common and frequently eaten food. They are served everywhere as an addition to soups, broths or side dishes to the main course. Due to their shape, Snail Pasta are perfect for recipes with a lot of sauce that penetrates the interior and adds taste and flavor to the dishes served.

Weight: 400g
EAN Code: 5941764024183

Penne Pasta

The starting point for choosing pasta is the type of sauce you want to prepare. Cylindrical-shaped pasta and serrated edges are preferred for recipes with a thicker sauce with cream, olive oil or melted cheese. They are used in puddings, cheeses, vegetable sauce or hot pasta salads, precisely for the high absorption of sauces and flavors in recipes. With a robust texture and pleasant color, the Penne Pasta give an appetizing look to all dishes.

Weight: 400g
EAN Code: 5941764024206

Shell Pasta

It is suitable for dishes with heavier sauces such as baked pasta recipes with spinach, cheese, minced meat and tomato sauce. They are also used in salads in combinations as simple as they are tasty.

Weight: 400g
EAN Code: 5941764024190

Menu
